

About Training

I have taught in public schools, at the collegiate level, private music lessons, and in corporate gigs. I have been able to reach students regardless of disparate skill levels across many topics. I have taught in person and via web. I have created curricula, content modules, and skills assessments for business and technical users. I have trained new hires in Standard Operating Procedures as well as in business apps such as Visio, Confluence, and Mural. I have mentored team members in skills and apps at every job I've had.

Checklist for Training Materials

Start of project:

- ☐ Review RFP, SOW, other project initiation materials for training mentions.
- ☐ Note where new technology / systems / apps are listed.
- ☐ Note who will be using new technology / systems / apps.
- ☐ Determine what type of training is needed:
 - ☐ Live
 - ☐ Web
 - ☐ Self-Directed
- ☐ Where will client host training content?
- ☐ List training segments.
- ☐ Training part of audit / validation?
 - ☐ What type of audit artifacts are needed for verification?
- ☐ If training multiple teams, groups, departments, how many make up sessions are needed?

Middle of project:

- ☐ Firm up training content sections.
- ☐ Ensure all initial questions answered.
- ☐ Start training content / materials drafts.

End of project:

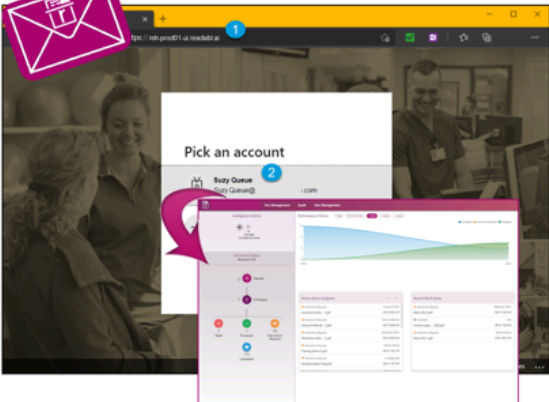

- ☐ Publish training content.
- ☐ Schedule training sessions.

Training Content

 ACME_GxP_Training.pdf — This slide deck helped train IT project personnel on the concept of GxP Best Practices as a client requirement to fulfill regulatory conditions governed by FDA. Team members accessed training decks and took tests (created using Microsoft Forms) to log date/time, userID, and final score as part of fulfillment.

The *User & Admin Guide* contains more detailed information, but these slides will get users started.

app web link:

- Click the link.
You will see the  readabl.ai login screen. Your user ID should appear; if not, contact your Admin.
- Click your ID. The app opens on the **Overview** tab.

★ Save the URL for quick reference.

If you have any issues with the system, please contact your system administrator first then contact the Help Desk at:

Help Desk: 

I created single topic cards for fast track content based on a larger training document.
