Intervention Needed

The screenshot shows the Fast Track interface with the following elements:

- Doc Management Tab:** The top navigation bar highlights the 'Doc Management' tab.
- Document Details Review:** The main section shows details for 'Demo file 2.pdf' (106653). It includes a warning: 'This document is being edited by another user or users.' and a status of 'Intervention Required'.
- Document Management Section:** Below the details, there's a section for filtering documents. It includes a date range filter (From To), an 'Apply' button, and a 'Reset all filters' button. The 'Intervention Required' checkbox is checked.
- Document Details Review (pdf input.pdf):** The section shows details for 'pdf input.pdf' (106346). It includes a warning: 'This document is being edited by another user or users.' and a status of 'Intervention Required'.
- Document Preview:** A preview of the document is shown on the right.
- Document Details Review (pdf input.pdf):** The section shows details for 'pdf input.pdf' (106346). It includes a warning: 'This document is being edited by another user or users.' and a status of 'Intervention Required'.
- Document Details Review (pdf input.pdf):** The section shows details for 'pdf input.pdf' (106346). It includes a warning: 'This document is being edited by another user or users.' and a status of 'Intervention Required'.

1. Click the Doc Management tab. A warning will appear, if the document is being edited by another user.
2. Add filter data or check the filter box if needed
3. Click **Apply** to filter document list.
4. Select the document to edit by clicking the file name.
5. Identify the needed changes.
6. Move your mouse over the desired card and click the purple pencil icon.
7. Click into text line(s) and make the edits needed.
8. Click on the check mark after edits are finished.
9. Click the **Save Changes** button.

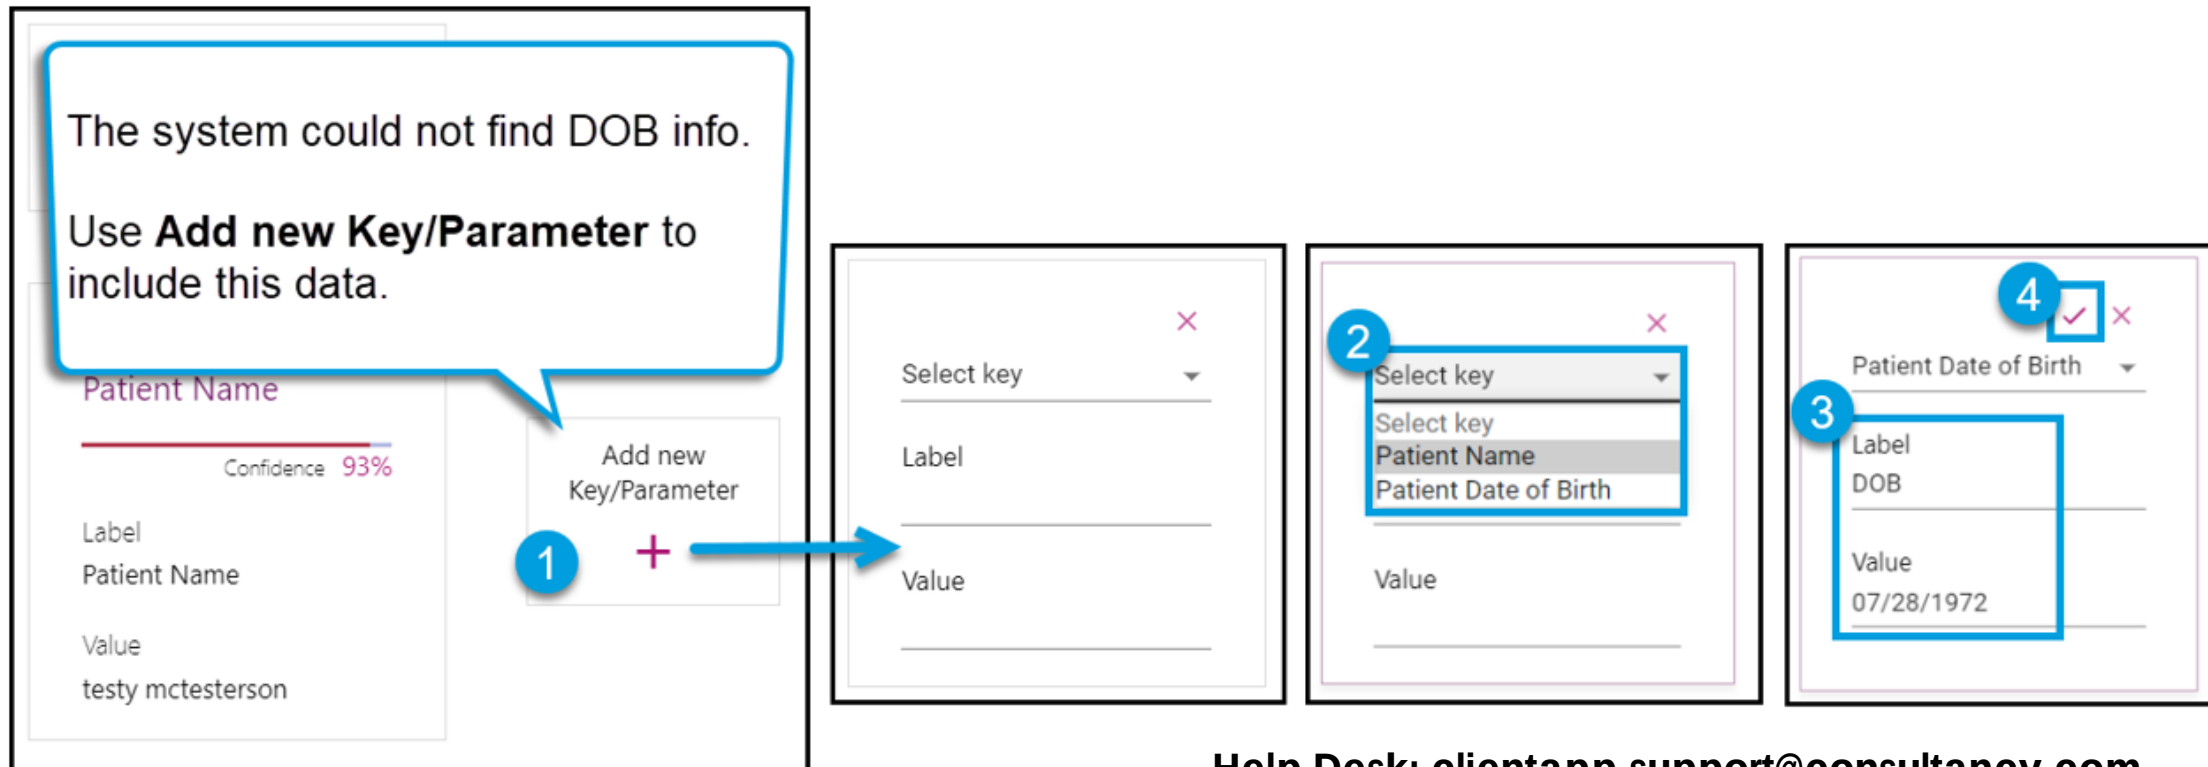

This triggers the system to re-check the document's contents for the patient against the EHR to see if the patient is in your EHR.

Adding Key Parameters

If a document is missing a Patient Name or Date of Birth card, you can add it.

1. From the *Document Details Review* window, click **Add new Key/Parameter**. A blank information card appears.
2. From the **Select key** pick list, select the desired parameter.
3. Enter the correct **Label** and **Value** for the parameter.
4. Click the check mark to finish adding the card; otherwise, click the **x** to cancel.

The system could not find DOB info.
Use **Add new Key/Parameter** to include this data.

Understanding Workflows

Intervention is **only** required when Name or DOB do not match records.

The app has a search feature for:

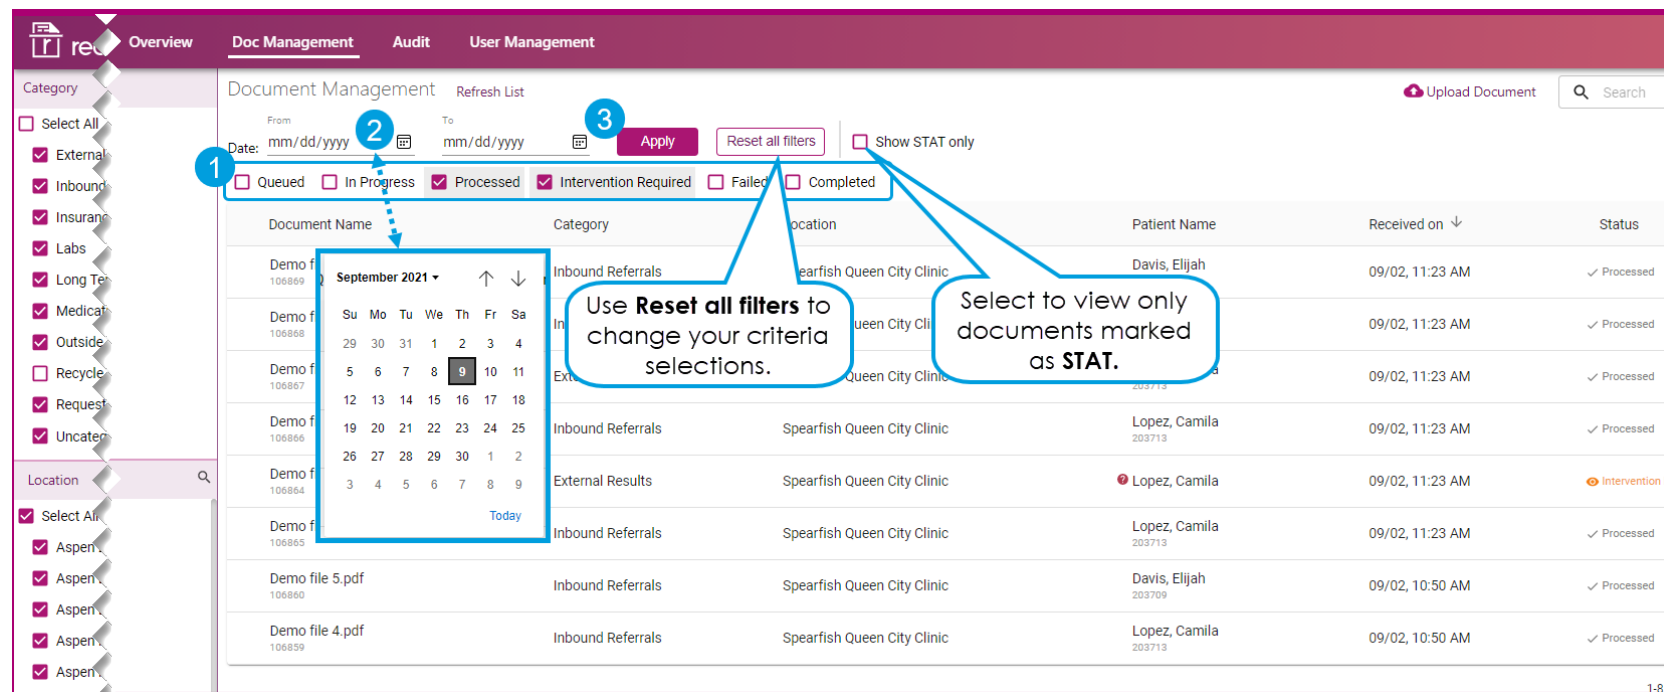

- Document Management
- Audit (Administrators Only)
- User Management (Administrators Only)

1. Type the desired term in any of the search boxes.
2. Press the Enter key on your keyboard.
3. Click X in the search field to clear the search results to search again.

The search engine will look for the search term in all fields on each window: Document Name, Category, Location, Patient Name, User Name, or Email.

Document Filtering

The screenshot shows the 'Doc Management' tab in a software interface. On the left, there's a sidebar with various filters like 'Category' and 'Location'. The main area has a 'Document Management' header with a 'Refresh List' button and an 'Upload Document' button. Below this, there are date range filters (From: mm/dd/yyyy, To: mm/dd/yyyy) and a 'Show STAT only' checkbox. A table of documents is displayed with columns: Document Name, Category, Location, Patient Name, Received on, and Status. The table contains several rows of demo files and actual documents. A calendar icon is used to select a date range. A 'Reset all filters' button is also present. A 'Show STAT only' checkbox is highlighted with a callout: 'Select to view only documents marked as STAT.' Another callout points to the 'Reset all filters' button: 'Use Reset all filters to change your criteria selections.'

Follow these steps to apply one or more filters in *Doc Management* :

1. To filter on **Status**, click the desired status check box.
2. Filter on a date range:
 - a. Click the calendar icon to select the from (older) date.
 - b. Click the calendar icon to select the to (most recent) date.
3. Click **Apply**. The window refreshes with the filter criteria selected.

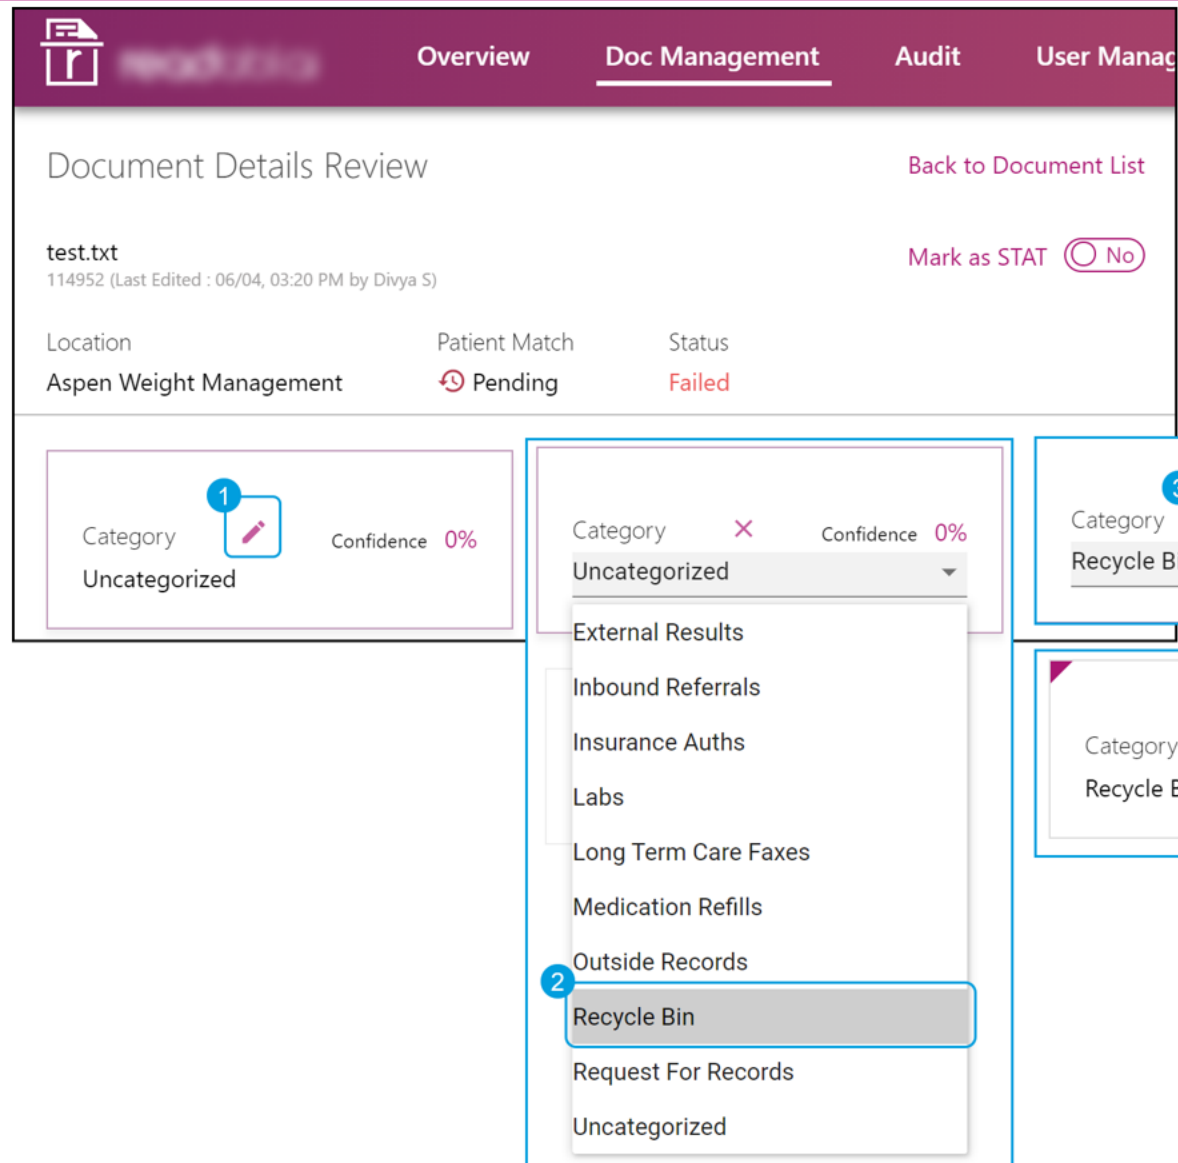

To cancel filtering, click **Reset all filters**.

Documents that are considered urgent have STAT applied to their file names. To quickly show only urgent documents, click the **Show STAT only** checkbox.

Send to Recycle Bin

To add a document to the Recycle Bin:

1. From the *Document Details Review* screen for the document, click the pencil icon on the **Category** card.
2. From the **Category** pick list, select Recycle Bin.
3. Click the check mark to confirm your change.
4. Click **Save Changes** to save your change to this document; otherwise, click **Discard Changes** to cancel the action.

The screenshot shows the 'Document Details Review' interface for a document named 'test.txt'. The document is currently categorized as 'Uncategorized' with 0% confidence. A pencil icon next to the category is highlighted with a blue circle and the number 1. A dropdown menu is open, showing a list of categories. 'Recycle Bin' is highlighted with a blue circle and the number 2. A checkmark icon in the dropdown is highlighted with a blue circle and the number 3. The 'Save Changes' button is highlighted with a blue circle and the number 4.

Save Changes Discard Changes

To retrieve a doc from the Recycle Bin:

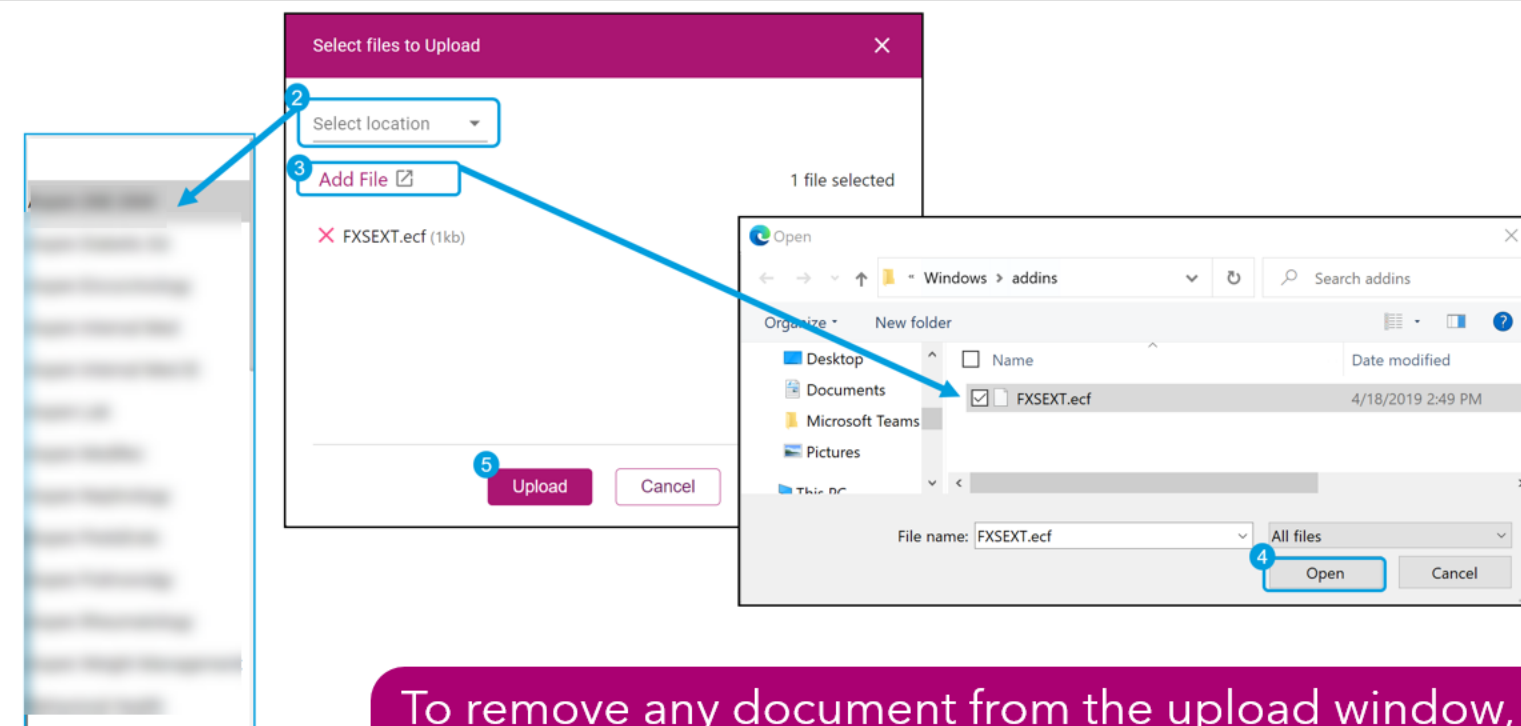

1. Click the **Doc Management** tab .
2. Check the **Select All** checkbox then de-select it to clear selections.
3. Click the checkbox next to **Recycle Bin**. Documents in the Recycle Bin appear.
4. Click the document you want to move from the Recycle Bin. The *Document Details Review* screen appears.
5. Click the pencil on the **Category** card.
6. Select the category you want to move the document to.
7. Click the check mark on the card.
8. To save your updates, click **Save Changes**; otherwise, click **Discard Changes**.

The system moves the document to the selected category.

Manual Upload

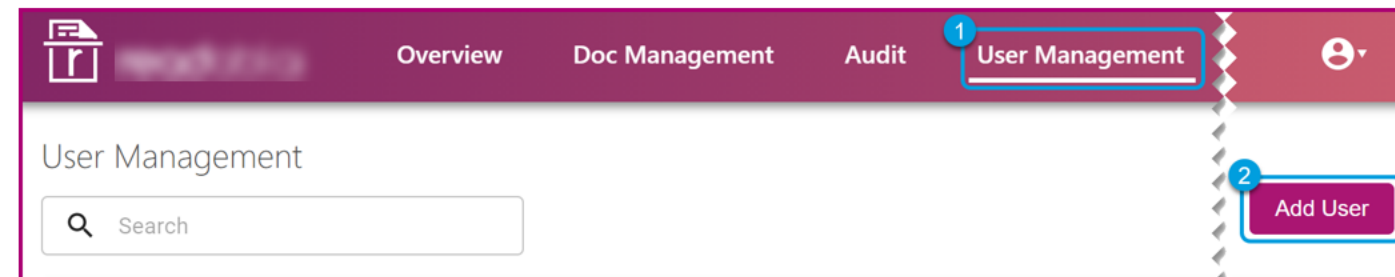

1. From the *Doc Management* window, click **Upload Document**. (The popup window named *Select files to Upload* appears.)
2. From the Select location pick list, set the desired location.
3. Click **Add File**. (A File Explorer window opens; navigate to the desired document location.)
4. Select the document(s) and click **Open**.
5. The files appear in the Select files to Upload popup window. Click **Upload** then **Done**. The system uploads the files and begins processing them.

To remove any document from the upload window, click the red X next to it.
To cancel the process (before uploading), click **Cancel** on the open File Explorer and / or clientapp windows.

Add / Edit Users

Overview Doc Management Audit **User Management**

User Management

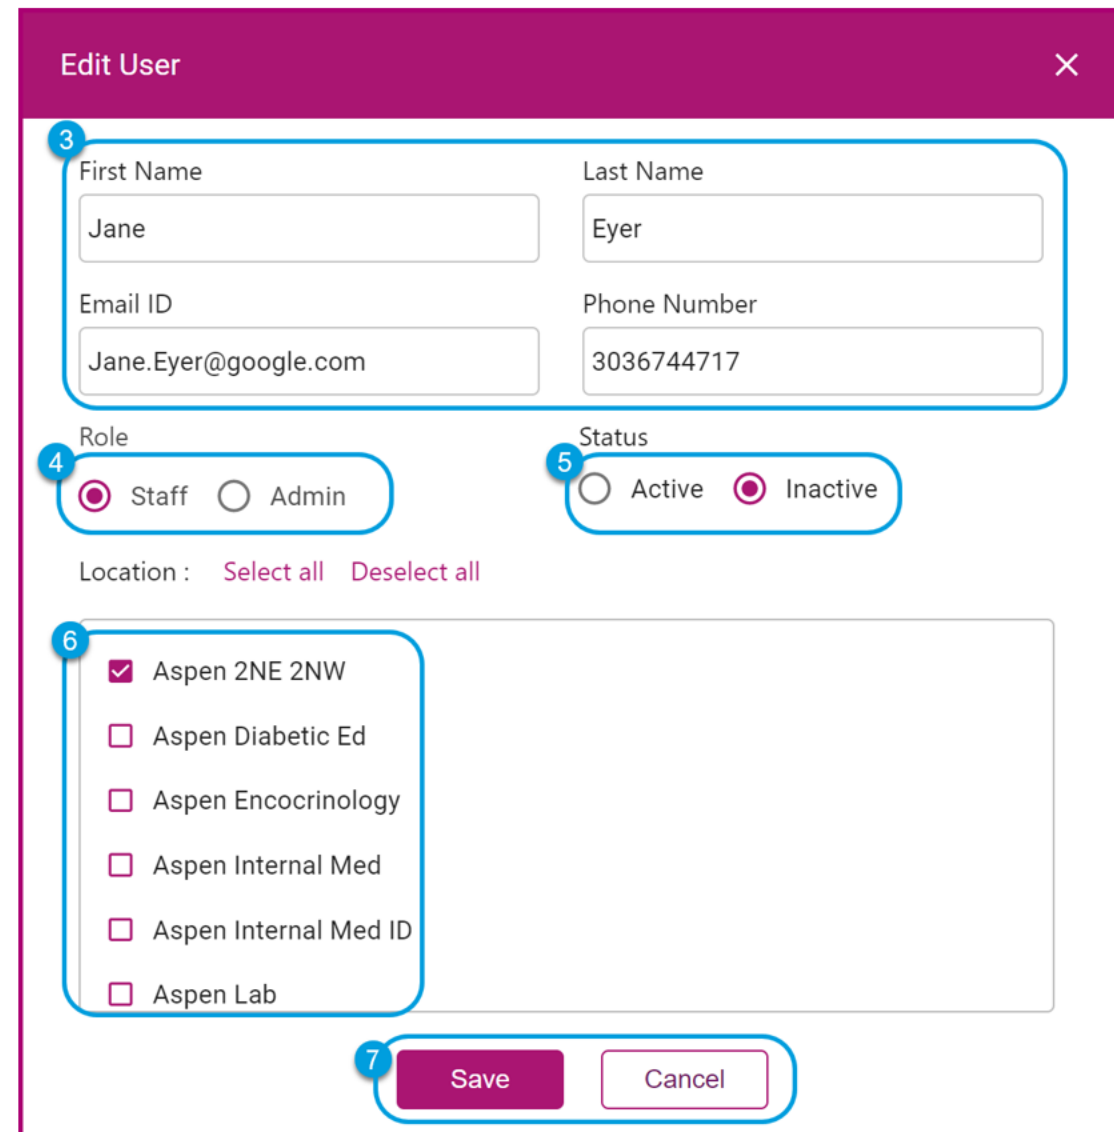

Search

Add User

1. Click the **User Management** tab.
2. Click **Add User**.
3. Fill in all the user information.
4. Select the desired **Role**.
5. Select the appropriate **Status**.
6. Check the box(es) with the location(s) this user should be able to access.
7. Click the **Save**.

The system updates / adds the user to the list for User Management.
